

What We Are Doing to Keep the Community Safe

Coronavirus (COVID-19)

19 March 2020 and until further advice

Yes we are open for business however staying vigilant and alert for the time being. We want to let you know what we are doing to keep you safe, whilst providing you with the same High-quality dining experience that you have become accustomed to here at Bella Venezia.

During this time and in light of recent Australian Government updates and Health Warnings we have implemented some immediate in house policies to minimise risk and to promote Community health and safety.

Simple yet effective measures which include but not limiting the following steps:

- Providing hand sanitizer stations for both customers and staff throughout our venue.
- Our staff will be using alcohol based cleaning solutions to wipe and clean all tables and benches front of house.
- We will maintain fresh table cloths as usual for each and every customer for tables that have table clothes in play.
- We will be enforcing social distancing measures throughout the restaurant ensuring that patrons are not seated in close proximity to one and other. In most cases every second table will be used to create adequate distance between diners.
- We will be monitoring and ensuring that our inside numbers (although we have a variety of seating rooms and locations), are capped and numbered and our overall seating capacity has now been reduced.
- Due to social distancing policies being implemented we may not be able to provide you with specific table requests however we will do our best to provide you with best option seating.
- Rest rooms will be monitored closely to promote and maintain strict hygiene
- And of course our kitchen team will be focusing on strict hygiene measures as usual back of house

Bella Venezia would also like to also highlight that our takeaway and delivery is a good alternative to dine in. You can order online at www.bellavenezia.com.au
